

電源供應系統

為行動護理車而設計

仁寶電源供應系統採用高能量密度的三元鋰電池，比傳統的鋰鐵電池穩定且使用壽命更長；兩組DC電源輸出能滿足行動護理車上不同電腦及儀器的同時使用，並且配合使用需求提供12、19和24V的輸出選擇；高達440Wh的電池容量，可替換式的機構設計能夠提高使用效率。符合IEC60601-1法規並搭配即時電源管理監測軟件，讓使用環境更安全可靠。

Compal power module carries high energy density Li(NiCoMn)O₂ batteries, more stable and longer life time compared with traditional Li-Fe battery; two DC outputs with selectable 12, 19, 24V satisfy the requirements of using different electronics on the nursing car simultaneously. Featuring 440Wh, swappable design, real-time power management monitoring software with IEC60601-1 certification, Compal power module can enhance efficiency, and keep user in a safer and reliable environment.

- 使用三元鋰電池，容量高達440Wh
 - 電池充電時間僅3.5小時
 - 提供兩組DC輸出，可彈性選擇輸出電壓12/19/24V
 - 可替換式設計利於更換，重量約8公斤，配有IP67防水接頭
 - 搭配電源模組管理軟件，即時監控系統狀態，提示警示訊息
 - 符合IEC60601-1，UL1642，EN55032，BSMI以及CCC法規認證
 - 具有過電流，過電壓，過溫保護機制
-
- 440Wh Li(NiCoMn)O₂ battery
 - 3.5 hours charging time
 - Two DC simultaneous outputs, selected voltage 12, 19, and 24V
 - 8 Kg weight, swappable design for easy replacement
 - Real time power management and monitoring software
 - IEC60601-1, UL1642, EN55032, BSMI and CCC certificated
 - Over current, over voltage and over temperature protection
